Pile Extractor PZ 130

Technical data of pile extractor

	Pile Extractor PZ 130
Maximum weight without clamping claw	96 kg
Weight of clamping claw	15 kg
Operating pressure	6 bar
Air consumption at 6 bars	3,5 m ³ /min
Number of strokes at 6 bars	950 n ¹ /min
Weight of piston	ca. 12,5 kg
Minimum pretension	1000 kg
Maximum pretension	3000 kg
Connection hose	19 mm (3/4")
For piles according to type of soil	
Durability and profile form	80 kg
Dimensions:	
Height (clamping claw included)	1000 mm
Width of cylinder	150 x 150 mm
Width of clamping claw	120 mm
